

June 3, 2020

*The Honorable Ned Lamont  
Governor, State of Connecticut  
210 Capitol Avenue  
Hartford, CT 06106*

Dear Governor Lamont:

Today is Wednesday, June 3, which is the day that we as a restaurant industry had asked to reopen our doors for indoor dining throughout the state. Unfortunately, this date will not become a reality for more than 8,500 restaurants and over 160,000 foodservice employees, as your administration continues to hold firm on June 20.

We urge the state to reconsider this timeframe and reopen indoor dining on **Wednesday, June 10**, which will be a full three weeks after outdoor dining began and 86 days since our dining rooms were told to shut down. Over this time, our restaurants continue to prove why they are leaders in safety and sanitation, as they have provided a safe environment for both their employees and customers.

Without this earlier date, it is clear that more restaurants can and will fail in the intervening days. This is not hyperbole. Just this week and only steps from the Capitol, Firebox Restaurant in Hartford closed after 13 years in operation. They simply could not hold out any longer. Right now, every day counts for our industry. Opening indoor service before the 20th will mean the difference for other restaurants, for their employees, and for our economy.

As our Governor, you have an opportunity to do what is right for our industry and help put us on a better path towards recovery. Neighboring Rhode Island has already opened their doors for indoor service. In addition, our COVID metrics are substantially better than our neighbors in New York and Massachusetts. For these reasons, we implore the state to set a realistic date that would be one week from today. It will give all of our restaurants a chance to prepare to open their dining rooms to the people of Connecticut.

### **Every Day Counts!**

Sincerely,

Scott Dolch | CRA Executive Director & More Than 550 Connecticut Restaurants
